- *It will be a great leap for all of our teachers to scrutinize the new curriculum to be able to deliver it well among learners.*

#### **c. Comments and Suggestions to the Conduct of the Training**

- *Ready made learning competencies and sample lesson exemplar with complete parts would be a great help to teachers and school heads.*
- *There should be a separate breakout session room and sound proof space to avoid learning interruptions.*
- *Provide additional time in delivering the topics and materials should be given/ready prior to the activities.*
- *The topics have been well-explained and the training was excellent.*

### **III. SUMMARY OF COMMENTS, MAJOR FINDINGS, AND RECOMMENDATIONS**

#### **a. Summary of Comments and Major Findings**

##### **•PROGRAM MANAGEMENT TEAM – [3.98]**

*The Program Management Team ensured effective communication, cleanliness, inclusivity, timely activities, and end of the day debriefings for participants to discuss the day's events and adjust for the next day, addressing any issues; though sessions sometimes ran overtime due to late participants, punctuality reminders are recommended.*

##### **•TRAINING VENUE – [3.89]**

*The training venue has adequate space and generally effective regarding its accommodation of participants, sound system quality, and designated area for the PMT; however, some breakout sessions experienced interruptions due to insufficient soundproofing, although adjustments were made by avoiding the use of lapel or microphone, and while the venue was spacious, it lacked soundproofing due to its partitioning with light materials, and the internet connection was fluctuated, thus for future trainings, it's recommended to ensure breakout session rooms are fully enclosed and to improve the internet connection.*
